

Katie Myers  
Bay-Arenac Community High School  
School Counselor

Katie began her career as a School Counselor in 2013 at an Alternative Education High School for At-Risk students. It was there that she fell in love with the Alternative Education setting. She models her School Counseling program after ASCA's three domains: academic, career, and social/emotional development. She is a Trauma Informed School Counselor who practices Solution-Based counseling with students. Katie loves working in Alternative Education because she feels it provides students another chance to reach their potential and it gives her a chance to work very closely with all students due to the smaller setting. Katie enjoys being a MAEO Board Member because it gives her an opportunity to collaborate with other Educators to promote positive changes in Alternative Ed.
