

I am a first generation American who knows the importance of a good education. I have taught adult and alternative education for Milan's night school program for 19 years, and have taught in Milan Federal Correctional Institution for the past 12 years. Being a teacher is not just what I do, it is who I am.

I believe everyone is entitled to a second chance, and I feel that I have been given the opportunity to provide it. I am a lifelong learner, with a Bachelor's of Science in elementary education and two Master's Degrees, one in secondary education and the other in administration. I want to use this education to provide the best education and opportunities to my students.
